DPF Clean

No Rinse Cleaner for Diesel Particulate Filter and Catalytic Converter

Description

DPF CLEAN is a non-flammable cleaner specially formulated for diesel particulate filters. It restores the original condition of the DPF, extending its life and avoiding its replacement.

Thanks to its chemical formulation, it acts deep inside the honeycomb structure of the diesel particulate filter, easily removing soot and unburned carbon particles that otherwise would block the engine exhaust gas flow, thus restoring the functioning of the entire exhaust system.

It does not require rinsing.

Fiel of Application

- Automotive

Features

- Ideal for DPF cleaning.
- High descaling power.
- Unblocks filters by effectively removing encrustations.
- Reduces emissions.
- Does not require rinsing.

- Non-flammable.

- Safe for metal parts.
- Safe for ceramic parts.
- Safe for painted parts, rubber, plastic, glass and other materials.

Instructions

- 1. Turn off the car and wait for the engine to cool down.
- 2. Remove the pressure sensor before the particle filter.
- 3. Disconnect the flow pipe, or loosen the connection flanges by a few millimetres.
- 4. Apply DPF CLEAN in the direction of the exhaust gas flow.
- 5. Wait for 30 minutes.
- 6. Reposition the pressure probe correctly or screw the flange above the filter.
- 7. Turn on the car and let the engine idle, accelerating periodically for about 20-30 minutes, or until the white smoke of condensate has cleared.

Physical and Chemical Properties -

| Value |
|------------------------------------|
| Clear liquid |
| Green |
| Characteristic (aminic) |
| 1,0027 ± 0,005 g/ml (at T = 20 °C) |
| 9,7 ± 1 |
| |

Safety Instructions

Keep away from heat, hot surfaces, sparks, open flames or other ignition sources. Do not spray on an open flame or any other ignition source. Do not pierce or burn, even after use. Read the label and the MSDS before use. The MSDS is available on request.

Storage Instructions

Store below 20°C. Keep away from open flame or heat, or direct sunlight. Never expose to temperatures above 50°C.

Disposal

DPF CLEAN is a water-based alkaline mixture that can be disposed of following the same standard required for a common detergent, according to the current regulations.

Shelf life

7 years.

Packaging

| ArtNr. | Description | 8 | | ** * |
|-------------|--|----|------|-------------|
| TR1206.P.01 | 5 L Tank | 02 | 160 | 192 |
| TR1206.K.01 | 1 L Bottle | 06 | 576 | 576 |
| TR1206.U.01 | 600 mL Aerosol Can with 60 cm cannula* | 12 | 1008 | 1176 |

*Not for sale in Germany and Austria
